Business Impact Statement:

This action will not have a significant economic impact on business and will not directly restrict the formation, operation, or expansion of a business.

Action Requested:

That the City Council approve the resolutions and interlocal agreements for shared funding for matters pertaining to homeless management in Southern Nevada.

Overview:

- The City annually participates with other regional entities to further efforts to reduce homelessness.
- Funding participation is formula based, using population as the primary modifier.
- Overall program cost for FY 24-25: \$839,556.75.
- Boulder City's share: \$6,716.45.

Background Information:

Local jurisdictions of Southern Nevada have formed a regional partnership to address homelessness. The purpose of the Southern Nevada Continuum of Care Board (SNH CoC Board), previously known as the Committee on Homelessness, is to promote a community-wide commitment to the goals of ending homelessness. Local jurisdictions commit funds and combine efforts for the Homeless Management Information System (HMIS), Census and Evaluation, and Emergency Shelter to improve homeless services in Clark County. The SNH CoC Board also oversees the coordination of grants and other federal aid to assist this at-risk population. Boulder City's St. Jude's Ranch for Children is one of the agencies benefiting from the CoC Board through HUD grant funding.

The Cities and County share the costs of some homeless services. Clark County Social Services combines funds to support these activities as a priority in the plan to improve homeless services in Clark County. Participation costs are determined through a formula, using overall population and to a lesser degree the homeless population within each community as factors. Boulder City's participation level is at 0.8% of the overall project cost.

The Emergency Shelter agreement funds an RFP for emergency shelters in Clark County.

The Census agreement funds the administration costs associated with the annual census count including census tracking software and administration expenses.

- Boulder City staff partners with volunteers from Emergency Aid of Boulder City to conduct the local homeless census count annually.

The HMIS agreement funds the HUD required software system for tracking homeless service offered to individuals.

- Emergency Aid of Boulder City uses HMIS to manage its clients.

For FY 2024-2025, the program will cost \$839,556.75. Boulder City's share of the program costs will be \$6,716.45. The program operational cost did not change from the prior year (remained flat).

Financial:

Funding for this program has been budgeted.

Boulder City Strategic Plan Goal:

Goal A: Achieve Prudent Financial Stewardship

Department Recommendation: That the City Council approve the following resolutions and agreements:
