# Window Restoration at 640 Avenue C

May 2024

With the cities of Las Vegas and Boulder City, and through a grant from the Nevada State Historic Preservation Office, we hosted a workshop on the cost-effective restoration & weatherization of historic, double-hung, wood windows.

The workshop restored four of the original wood windows at the museum's property at 640 Avenue C. We expect to complete the window restorations in 2025.
