- (d) The successful Respondent must assert its right to an adjustment under this clause within 30 days from the date of receipt of the written order; however, if the City decides that the facts justify, the City may receive and act upon an invoice submitted before final payment of the Proposal.
- (e) The successful Respondent shall provide current, complete, and accurate documentation to the City in support of any equitable adjustment. Failure to provide adequate documentation, within a reasonable time after a request from the City will be deemed a waiver of the successful Respondent's right to dispute.

23. INDEPENDENT CONTRACTOR: In the performance of services under this Contract, the successful Respondent and any other persons employed by it shall be deemed to be an independent contractor and not an agent or employee of the City. The City shall hold the successful Respondent as the sole responsible party for the performance of this Contract. The successful Respondent shall maintain complete control over its employees. Nothing contained in this Contract or awarded by the Company shall create a partnership, joint venture or agency. **City of Boulder City
Request for Proposal (“RFP”)
RFP 2019-07 Utilities Rate Study
Scope of Work**

Part 1 – Background: The City of Boulder City is soliciting proposals from qualified vendors to conduct a comprehensive electric, water, wastewater and solid waste rate study. These services will fall under the specific direction of the Utilities Director or their assignee. The City envisions this project being completed in 7 Phases, as described in the Scope of Services below.

Part 2 – Scope of Services

Phase 1: Project Initiation and Data Review

The primary objective of Phase 1 is to ensure that the project progresses in an efficient and deliberate manner. Phase 1 will include a kick-off meeting and the collection and review of the data needed for the study. This meeting will serve as a forum for City staff to provide input on the project approach, work plan, schedule, and priorities. A successful kick-off meeting ensures that City staff and the Respondent agree on the project's goals and expectations. Please describe your approach to developing and managing a kick-off meeting.

Phase 2: Stakeholder Engagement

The primary objective of Phase 2 is to generate understanding and acceptance for the ultimate recommendations of the Study from the key stakeholders for the electric, water, wastewater, and solid waste utilities. There are two primary groups of stakeholders that will be engaged: members of the Boulder City City Council (City Council) and the Utilities Advisory Council (UAC) made up of customers of Boulder City's four utilities. Please describe your collaborative approach and expected outcome of working with these two groups.

Phase 3: Comprehensive Electric, Water, and Wastewater and Solid Waste Utility Financial Plans

The comprehensive financial plans will establish the level of rate revenue required to support the continued operation and maintenance of each utility, finance critical repairs and replacements, and ensure ongoing financial sustainability. As a deliverable, the City would like to receive a 5 to 10 years forecast of the following; a forecast of revenue at existing rates, a forecast of operating and capital expenses, the development of utility cash flow forecasts with recommended rate revenue adjustments, and a summary of the revenue requirement for each utility.

Phase 4: Cost of Service Analysis

While each utility's financial plan provides an indication of the total level of revenue required to support each utility, a cost of service analysis should determine what proportion of each utility's revenue requirement that should be recovered from each customer class (e.g., residential, commercial, industrial). This allocation will be used to determine how each customer's proportional allocation of costs should be recovered (e.g., fixed charges, variable charges, or block rates). Please describe in detail your plan for conducting the Cost of Service Analysis and the deliverables we can expect.

Phase 5: Rate Design

Phase 5 involves establishing rates which appropriately and equitably recover the cost of providing electric, water, wastewater and solid waste service to the City's customers. Please describe in detail you plan for completing the Rate Design and the deliverables the City will receive.

Phase 6: Rate Model Development

The successful respondent will develop a rate model that encompasses the Financial Planning, Cost of Service and Rate Design efforts of the previous phases. Please describe your process of completing this and the deliverables the City will receive.

Phase 7: Reports, Meetings and Presentations

The City requires two reports:

Draft Report: The Draft Report should document the rate development process, describe any recommended changes to the existing rate structures and the reason for such changes, and present the results of the cost of service and rate study. The draft report will include an executive summary in addition to the detailed discussion of the study in the body of the report.

Final Report: This report will incorporate City staff's comments on the draft report into a final report. Upon finalization of the report, the City will be provided with five (5) bound copies of the final report and an electronic copy (in Microsoft Word® and PDF format) of the report.

Please provide the City an initial list of meetings and presentations you feel will need to happen to complete this project, from "Kick-off" to "Final Presentation to City Council".

Other Supplemental Services as Identified by the City: Throughout the course of the engagement, issues may arise which require additional services, which were not contemplated, but are nevertheless needed to successfully complete the Study. Please propose a contingency amount to cover these instances.

Part 3 – Required Documents for your Proposal

The City asks that interested parties submit a response using the following structure:

1. A proposal discussing your processes and the deliverables the City will receive for Phase 1 – 7 of this project. You may also include any other material you feel is relevant to your proposal.
2. Management qualifications including similar projects you have managed for other municipalities within the last 3 years, including highlights of the projects you accomplished.
3. Value added propositions not identified in this RFP's Scope of Work.
4. Copies of relevant qualifications and certifications.
5. A proposed fee schedule for the project.

Part 4 - Additional Documents required for your Proposal: The following information is mandatory and should be separately identified. Failure to complete and submit any section may be grounds for rejection. These documents are attached as exhibits to this Scope of Work:

|-----------|--|
| Exhibit A | Offer Statement and Business Form - Provide the name and address of Respondent for purpose of notice or other communication relating to the Proposal. Proposals must be signed by a business entity official who has been authorized to make such commitments. |

- (2) Interviews and presentation(s) of Proposals by Respondents to the Selection Committee (if the City determines a need for such).
- (3) Presentation(s) of Proposals by Respondents to City Council (if the City determines a need for such).
- (4) Negotiation/finalization of a Professional Services Agreement between the City and the selected Respondent.

Part 6 – Evaluation Factors: The following factors will be considered in the evaluation of individual Proposals. The City's Selection Committee will score each Proposal on a 100 point scale. The purpose of scoring the Proposals is to establish a prioritized order in which to continue further discussions. The following are the criteria and points associated for each that the committee will be using:

- A. Completeness of the Proposal (20 points total)
 - Response to RFP provisions (10 points)
 - Respondent 's references (10 points)
